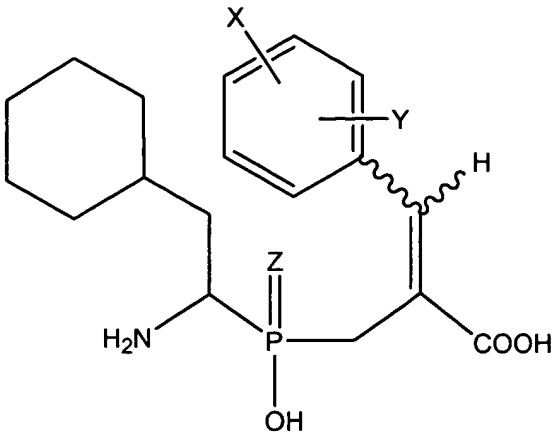
In the claims:

1. (Currently amended) A compound of formula I:



E&Z-isomers

I

wherein

X is selected from the group consisting of F, Cl, Br, ~~I^{125}~~ ^{125}I, I, CF_3, NR', and radioisotopes thereof;

Y is selected from the group consisting of H, CH_3, OCH_3, CF_3, F, Cl, I, ~~I^{125}~~ ^{125}I, NR', and radioisotopes thereof;

NR' is selected from NH_2, N(C1 to C6 alkyl)$_2$, and NH (C1 to C6 alkyl);

Z is selected from the group consisting of O, S, and radioisotopes thereof.

2. (Original) The compound of claim 1 which is the E isoform.
3. (Original) The compound of claim 1 which is the Z isoform.
4. (Original) The compound of claim 1 which is radiolabeled.
5. (Currently amended) The compound of claim 1 ~~which comprises at least one~~ wherein at least one atom of X or Y is radiolabeled ~~atom~~.
6. (Currently amended) The compound of claim 1 wherein at least one of X or Y is an ~~which comprises at least one~~ ~~I^{125}~~ ^{125}I atom.
7. (Currently amended) A formulation ~~The compound of claim 1 which is formulated~~ for oral administration to a human subject comprising:

the compound of claim 1; and

an agent for enhancing absorption through intestines.

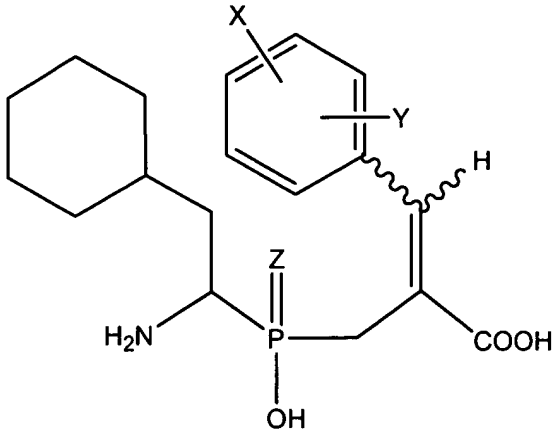
8. (Currently amended) ~~The compound of claim 1 which is formulated~~ A sterile, apyrogenic formulation for intravenous administration to a human subject comprising:

the compound of claim 1; and

water.

.

9. (Withdrawn) A diagnostic formulation which comprises a compound of formula I:



E&Z-isomers

I

wherein

X is selected from the group consisting of F, Cl, Br, ~~I^{125}~~ ^{125}I, I, CF_3, NR', and radioisotopes thereof;

Y is selected from the group consisting of H, CH_3, OCH_3, CF_3, F, Cl, I, ~~I^{125}~~ ^{125}I, NR', and radioisotopes thereof;

NR' is selected from NH_2, N(C1 to C6 alkyl)$_2$, and NH (C1 to C6 alkyl);

Z is selected from the group consisting of O, S, and radioisotopes thereof.

10. (Withdrawn) A method of detecting a tumor, comprising:

administering to a subject suspected of carrying a tumor a compound of claim 1;

detecting localization of the compound within the subject, wherein the localization is not in the proximal tubules of the kidneys; wherein a localization of the compound indicates

a tumor at the localization.

11. (Withdrawn) The method of claim 9 wherein the tumor is a colon tumor.
12. (Withdrawn) The method of claim 9 wherein the tumor is a benign tumor.
13. (Withdrawn) The method of claim 9 wherein the tumor is a malignant tumor.
14. (Withdrawn) The method of claim 9 wherein the tumor is a benign colon tumor.
15. (Withdrawn) The method of claim 9 wherein the tumor is a malignant colon tumor.
16. (Withdrawn) The method of claim 9 wherein the localization is detected by scanning all or part of the subject.
17. (Withdrawn) The method of claim 9 wherein the localization is detected by PET scanning.
18. (Withdrawn) The method of claim 9 wherein the localization is detected by radionuclide scanning.
19. (Withdrawn) The method of claim 9 wherein the localization is detected by scintigraphy.
20. (Withdrawn) A method of inhibiting tumor growth, comprising:

    administering to a subject carrying a tumor an effective amount of a compound of claim 1, whereby growth of the tumor is inhibited.
21. (Withdrawn) The method of claim 19 wherein the compound is labeled with a cytotoxic radioisotope.
